CGPA: 8.14 (Till 4th Sem)

H S C - Southside Matriculation Higher Secondary School , Sattur **2021- 2022**
88%

PROJECTS

SwapLend:

Tools Used: Flask, SQLite, HTML/CSS, JavaScript, Bootstrap

- Developed a Swap Lend Product Lending and Swapping Platform
- Created an innovative platform for the lending and swapping of products, where users can lend or exchange items such as electronics, books, tools, and more within their local community.

Legal connect Hub:

Tools - Java, Java Swing, MySql

- Designed a Java-based platform to connect lawyers and victims, enabling the selection of legal professionals based on criteria such as fees and ratings.
- The platform integrates a database to store case details and a Google-supported chatbot to assist with real-time law-related queries.

Datalytics Club Website :

Tools - MEAN Stack

- The Datalytics Club website is designed to be the central hub for club activities, events, and resources.
- The website will feature sections for upcoming events, member profiles, data science resources, and interactive forums for collaboration.
